Justice.

If there is anything more certain than man's sinful tendency, it may be looked for in the twin certainty that the greatest sinners escape punishment. There has come to be an aristocracy among sinners with delicate customers and privileges awarded them by their ability in sinning. Duncan will in a few days begin to gain friends, his attraction as a criminal will wane, and the only interest which will remain in connection with his offenses will be solely with those who desire to follow in his footsteps. There are very few persons who can look upon Duncan as a common thief. By common consent he is raised above that standard, and no one would think of believing that Duncan will ever be punished as he deserves. Tweed, upon whom every power of the metropolitan press was turned, has never yet lacked friends, nor has there ever been a time when his offenses were mentioned with the purpose of inculcating a moral precept. Lately one Murphy ran off to Canada with \$40,000 of public money, and when he got safely over the line, wrote back that he would divide. The stock sharp who put up a deal draws in his neighbors and then applies his cinch, is never thought of as a dishonest man, and yet his doings are not, our ideal of honesty and justice. We should be inclined to say that if deals steals, and thieves thieves, take care to punish them as such, there would be less thievery and fewer sensations for the papers. The case of Breen and Cowie, which is well known to our citizens, will probably prove another illustration of this escape from punishment. We like to discuss a man's sin, but we are never anxious to see justice done unless he is a very offender. Pettit larceny is what we punish.

Bodie Again.

From a letter of recent date from a friend at Bodie we glean the following items of interest to our readers: Bodie is alive with mining excitement. The snow is four feet deep, but as the weather is pleasant, prospectors are out in every direction, and mines are being located even ten miles from this camp. One peculiarity of the ore found is that it only contains about 5 per cent. of silver, the remaining ore being free gold. There are 100 locations here, so I am told, that will yield from \$50 to \$1,000 to the ton. Of course this means lively times next Summer. The biggest speculation has been in town lots. Six months ago lots which sold for \$50 cannot be bought to-day for ten times that amount. Nor has the speculation been confined to town lots alone. Merchandise etc. and mines have contributed to this mania of Americans. Immense profits on everything, win much or lose will, seems our motto of action. A few days ago a poor prospector struck a ledge, did less than ten dollars worth of work on it, and sold his claim for \$10,000. Illustrative of how the commodities of comfort and subsistence sell here, it will be sufficient to say that wood sells for \$30 per cord, flour \$10 per barrel and potatoes 10 cents per pound. Bodie is estimated at 9,500 feet above the level of the sea. I am informed that as high as twenty feet of snow has fallen here, but this, winter the heaviest snow has not exceeded six feet in depth. A poor man can only strike it here by accident. We have already many idle men, and hence those who want to make a fortune on a very small expenditure had better stay at home. Bodie is being overdone, but you all know what a big mining excitement is, and many of your readers have had their fill. I will write after I have seen and questioned men and things more fully.

EFFECTS OF THE CALIFORNIA FLOOD.—San Francisco, March 4.—A correspondent of the California Associated Press, who has ascended the Sacramento river to Mono, 190 miles above Sacramento City, telegraphs that for the entire distance the country presents the appearance of a continuous sea on both sides of the river. Not 5,000 acres along the river for the whole distance have escaped the flood. The river is falling rapidly, and vast tracts of wheat land are making their

appearance, much of which may be saved if rising north winds follow the recent continued storm. Between Sacramento and Mono there are about 250 breaks in the levees. Dr. Glenn, a large farmer in Colusa county, has lost 20,000 sheep and 6,000 acres of wheat land by the flood. The main wheat lands of Colusa county are five miles from the river, and are safe. About ten per cent. of the wheat crop of that county is ruined and about the same amount damaged. The loss between Sacramento and Monoville in levees, buildings, stock and crops, will reach \$800,000, besides the decrease in the value of property in some localities. There is, however, a prospect of an enormous harvest, and much sediment has been deposited, which will renew the land where worn by continuous cropping. The flood has caused comparatively few cases of personal suffering and want.

CARD OF THANKS.

We, the undersigned, wish to tender our thanks to Mr. J. A. Brunsey, State Agent and Mr. James H. Marshall, City Agent of the Home Mutual Fire Insurance Company of San Francisco, for the highly satisfactory and unprecedented manner in which the representatives of the above named Company have settled their portion of the loss which we sustained at the late fire on Frisbie's corner. We take great pleasure in recommending the Home Mutual Insurance Company to the insuring public for honest, square and high-toned dealing.

INSURE in the Home Mutual. If your property is destroyed by fire and you are fortunate enough to hold one of our policies, your money is ready and paid when you most need it. No litigation or trouble.

LOCAL AFFAIRS.

Poor House.

In company with the Commissioners we visited the County Poor House this morning. The building and grounds are in charge of Mr. D. D. Bowen, who seems the right man in the right place. There are at present ten inmates of the Hospital among whom we noticed Washoe's old stand-by Henry McCann and Mrs. Elizabeth Sharp, whom we take to be Washoe's old inhabitant. The male patients have a nice, well lighted, warm room on the ground floor where we found the sick ones as comfortable as could be expected. The furniture is of course plain but substantial, and serves well for comfort. In the kitchen and dining rooms neatness is the order which is strictly obeyed, and throughout the house we found evidence that good care is taken of the county's property. The female patients have each comfortable rooms, with fire, and are attended by Mrs. Bowen, who is kind and competent. In a room looking towards town, we found Mrs. Sharp, who hopes during March to see her 86th birthday. The old lady started up from a day dream as we entered, and seemed eager to get up a conversation. The Commissioners, who had become well acquainted with Mrs. Sharp, heard all of her grievances, which were numerous, and assured her that these things should be remedied. The old lady then reiterated her four-year old request to be taken to Yolo county, and when told that it was under water, hastened to say that she ought to have some substantial friends there, and so we left her to join her pipe, sole comfort, and only companion of long years of helplessness.

QUARTZ MILLS DISTANCED.—There are several hand quartz mills in successful operation in town. The owners of the ore sent themselves on five-dollar rock, place a portion of their obdurate chunky wealth on a large stone in a box, and then with an Indian mortar, or a bar of iron, faithfully belabor the aforesaid chunks of wealth. A close estimate reveals the fact that under favoring circumstances a good man will pound up about one quarter of a ton of semi-decomposed quartz ore per day. The alluring hope of the attainment of sudden affluence will have a most wonderful effect in leading men of moderate industry to acts of energy. Such devotion to pestle and mortar might be likened to its intensity, if we may be pardoned a sacrilegious comparison to the love of Leander for Hero which only grew stronger by each bath in the Hellespont, and which never relinquished its hold upon this gray Lethario until he took the cramp one night and without any recorded will and testament decamped for a foreign clime, where milk and honey may flow but sea water is not in use or demand.

ANNUAL BALL.—One week from next Thursday evening the employees of the V. & T. R. R. will give their annual ball in Carson. Their parties heretofore have been most successful and highly enjoyable. Being invitation balls no rough or unwelcome persons have been present. Of the same character will be the grand terpsichorean reunion of the 14th inst. Tickets, including supper for gentleman and lady, \$5.00. Those of our citizens who desire to attend this party will be passed free over the V. & T. R. R. both going and returning by showing their ticket to the conductor. The gentlemen's lady escort is intended of course. Every preparation is being made to insure a first-class party, one which shall cost those residing in Reno or Virginia city no more than it does those who live in Carson. Further particulars will be given in due time.

THANKS.—The undersigned desires to return thanks, for the Baptist Society, to those friends who aided so largely in making the concert of last week successful. Had the pecuniary benefits been in proportion to the unselfish labors of our volunteer aid we should have been indeed fortunate.

Respectfully,
W. Sanders.

The excitement to-night at the Court house will be the session of the Reno Congressional Lyceum. Members respectfully solicited to attend. Visitors will be on hand to welcome you, gentlemen. The Silver bill will probably come up for discussion.

LECTURE TO-NIGHT.—This evening at the Baptist Church, a most interesting lecture on the Open Polar Seas, will be given by Capt. B. Tuttle. Capt. Tuttle has had some 50 years experience on the sea, twenty years of which time has been spent in the Arctic regions. His lecture will therefore per necessity contain points of information at once interesting and instructive. He has been north 83° and seen as much of those mysterious ice bound regions as any living man. There he found an immense ice barrier upon whose top he climbed and gazing far into the open polar sea, saw sights which were even more impressing than were those which greeted the eye of Balboa, when he gazed for the first time upon the placid waters of the Pacific. Far up in those ice-bound shores he discovered ore specimens of gold and silver, which had been washed there as formed by the action of the ore forces during the restless ages of the past, and having been caught up by the mighty glacier and borne southward, were gathered while yet enroute and even before the attrition of the immense ice-stream had much worn their rugged faces. Mighty whales has he seen actively sporting in the clime of the polar bear. Many scenes made dull by the prosy compiler, will be presented this evening by one who has seen whereof he speaks, and with voice and gesture, by large maps and pictures will carry us into the very presence of a strange land, one full of interest, one unknown and therefore inviting. Capt. Tuttle will deliver a second lecture at the Methodist Church on Thursday evening next. Admission 50 cents, children half price. Lecture to commence promptly at 8 o'clock.

ROLLS OF HONOR.—The following is the roll of honor of Miss Frankie Gibbs' Department of the Public Schools, for the month of February: Helen Sample, 100; May Knox, 80; Davy Ayer, 95; Amanda Ayer, 100; Minerva Ayer, 100; Hattie Higgins, 70; Mack Sample, 100; Walter Johnson, 100; Charlie Bee-mer, 100; Thomas Miller, 100; Jay Harrison, 100; Eugene Lee, 75; Jerome Ayer, 75; Charlie Bristol, 80; Andrew Griffin, 85; Frank Guillard, 95; Frank Fowler, 75. Total number enrolled, 65; average number belonging, 60; average daily attendance, 55.

The following are the names of the pupils on the roll of honor for the month of February, 1878, in the Primary Department of the Reno Public School, Miss Effie E. McNeely, teacher: Amanda Harie, Josie Clark, Mamie Jackson, Madeline Hammer-smith, Lillie Pryor, Mamie Nowetty, Daisy Tanbert, Maud Rutledge, Eliza Murphy, Josie Jones, Henry Cahn, Charles Johnson, Willie Hewlett, William Larson, Harry Larson, Frank Coffin, James Higgins, Fred Pryor, Charles Nash, Leonrad Ayer, Earnest Brown, Albert Brown, Lee Undike, Alex Raphael, Vinnie More.

COMMENDABLE.—We omitted yesterday to mention our hearty approval of the music given at the Baptist Church Concerts. They were the best amateur efforts ever heard in Reno, and many of the Singers gave proof of higher talent than we had yet thought of claiming for our town. Mrs. W. C. Gray has a very pleasant voice and we should be pleased to see her the central figure in a glee club which should cultivate our local musicians. Miss Lida Hutchinson, Mrs. R. P. M. Greeley, and Mrs. Cutting should also be mentioned, and we hope that these ladies may frequently afford us an opportunity for enjoying their musical gifts.

MRS. BOWERS.—Mrs. Bowers did not arrive in town yesterday but will be here this evening. She will be found at the Pollard House. Several parties have already made engagements with her. Others who have lost diamond necklaces and other articles of value are anxious to see the widow of Sandy Bowers. A number are desirous of knowing what will be the result of the Schively furnace, and whether or not that Peavine and Pyramid will yet turn out rival mining centers to the unsurpassed Comstock lode. Thus it has ever been from childhood's hour. *De gustibus non est disputandum.*

PROCEEDS.—The Baptist Church concert netted \$57.25. The total receipts were \$113.50, much less than our church benefits usually get, but it is all accounted for by the hard times. We are sorry that the dollars of our donors did not respond more heartily, for this was the best concert ever given by a church society in our town.

Jottings.

Where are those dollars of our "dads?"

J. F. Gladding, of Wadsworth, was in town to-day, and reports that his teams are at work on the Bodie road.

D. D. Grannis, of Washoe Valley, came down to see the Commissioners. A house was demolished last night down near Chinatown. Somebody did not admire the habits of the owner.

The road down to the Poor House is undergoing a change of base. Behmer is captain.

The farm surrounding the Poor House has been improved considerably. Nice property, that.

This must be Spring sure enough. The trees are all budding.

The Schively furnace has been fired up and is now being thoroughly dried. To-morrow morning at ten o'clock the ore, etc., will be put in, and—well we'll tell you the result to-morrow evening.

Miss Emery is sick, and her school is for the time being under the charge of Miss Minnie Gibbs.

The County Commissioners have been in session all day. To-morrow we will give full particulars.

There will be a meeting of the Riverside Club to-morrow evening at D. A. Bender and Co's bank. Hour of meeting, 7:30. By order of the President of the Club.

TEMPERANCE AND POLITICS.—A politico-temperance meeting was held last evening at the Baptist Church. Dr. Fred. Hutchins was called to the chair whilst J. C. Lewis preformed the clerical duties. Capt. Cook offered a series of resolutions, the purport of which are that temperance principles form the basis for future political action by the friends of total abstinence. Speeches were the luxury of the hour and were indulged in by Messrs. Hutchins, Leeper, Laycock, Lewis, Cossett and Capt. Cook. These resolutions of the last named gentlemen were referred to a select committee, to be reported on at the next meeting of the club, one week hence. Success to the new move. The political pot simmers. Let it produce a boil.

Twenty-six car-loads of cattle passed west this morning. These cattle came from Stein's mountain and were shipped to Catlow & Johnson San Francisco. One of the parties having the cattle in charge says that there are some 2,000 head yet to ship from that section, and that the active shipment of cattle from the eastern part of this State will close about the middle of next month. About that time California cattle are thrown on the market.

DRAMATIC CLUB.—Why not organize a dramatic club for mutual improvement and perhaps matrimony? No, that's not what we mean. Why not organize a Romeo and Juliet club, and feed on smiles and take poison? No, that's not it either. Why not get up a Shakespearean revival, and have a few seances with Hamlet's ghost and—that wouldn't be pleasant either, but what we do mean to say is that Reno has talent for the production of very fine amateur theatricals. To be or not to be?

Our morning cotem. thinks we are poor prophets about Governor Bradley. We admit the soft impeachment. At first he was not a candidate. Then he visited the "Great East," talked with some of his political friends, and now admits that he isn't their hands and will attempt to secure the nomination for Governor. We'll bet our spare tin foil that Hagerman gets the nomination.

ANNOUNCEMENT.—The following was left in our office to-day with a request that it be published: "Rev. M. A. Caldwell, of North East, Pa., we understand is to deliver a course of lectures on temperance, as also to preach for a few Sabbaths in some of our churches. Lectures, etc., to take place under the auspices of the Young Men's Christian Association."

Hon. Jas. Gladding of Wadsworth, is in the burg to-day. Jim wears good clothes and has a smiling face. He talks of matrimony and if reports be true, we shall have the pleasure of chronicling some excellent lady's misfortune before the close of the present month.

Every able-bodied spiritualist in the State will now rise to his feet and state whether Rover has been to see him, and what he said about stonement and all those things. They have, however, refused to say what Sharp has to say about matters. They don't associate with Sharp.

STOCKHOLDERS MEETING.—The Consolidated Poe Mining Company will hold its annual meeting on Friday, March 15th. See official notice.

Some 2,000 head of cattle will be delivered to the West Shipping Association within the next twenty days.

Col. Ingersoll's humble admission that he could have improved on the universe if he had been consulted is the dictum of a truly great mind. Not many such men come to this lower sphere, and we ought to perpetuate his memory by erecting a colossal statue of him in pure brass. He reminds us of the French infidel who, standing under an oak tree and looking at a gourd vine, said that if he had been spoken to about the matter he would have advised the Almighty to put the gourd on the oak tree and the oak on the gourd vine. Just then an acorn fell and hit him in the cranial region, where people's brains are situated, when they have any. It was lucky for him that the acorn was not a gourd, and for once, and only once, he admitted that things are better as they are. The Colonel, however, differs from the Frenchman, and persists in thinking that the universe won't be quite perfect until his great brain is permitted to make suggestions. We believe in fair play, and suggest that the honors be divided between the Colonel and George Francis Train. If the world could only be persuaded to adopt the highly intellectual propositions of these gentlemen, the throne of the Almighty and accept the rule of the two mightiest thinkers of any age, we are well assured that something would happen at once.—New York Herald.

How THE JUDGE IS BULLDOSED.—A bright little fellow of some seven or eight years of age and well known about town strayed into a saloon one day this week. Hearing the boys speak of a certain suit that was dragging its slow length through our District Court he inquired what it was. They explained and asked him if he had ever been in court. On receiving a negative reply they advised him to go up stairs and hear the lawyers make speeches. He did so, and was gone about three-quarters of an hour. On returning, with a most radiant and pleased expression, he was asked if he had been there. "Yes, I have," he replied, "and there ain't no lawyers up there; only a lot of big hoodlums sitting round a big table and one of 'em was standing up and shaking his fists at Judge Jameson and talking real mean to him; and pretty soon another one jumped up and sassed Judge Jameson. Then they all got mad and jumped up and shook their fists and hollered at him so he was afraid to say anything back. Sheriff Lott was there, too, and he was afraid. You bet it's a fight, and I'm going back to see 'em fight' and he left.—Emerald Herald.

CHINESE SLAUGHTER.—The number of people who have been killed during the Chinese rebellions and wars is awfully enormous. During the past rebellion in the Northern Provinces the aggregate is estimated among the millions. These Chinese atrocities are of the most horrible description. At Manass, a town in Kashgar, the Chinese troops recently massacred 15,000 men, women and children with the most appalling outrages. A robber chief, who routed the Government forces, is said to have massacred 600,000 helpless victims in one day, and in a few days afterward he butchered 400,000 females. He was not long after shot by one of his own men. These figures are so enormous as to seem incredible, and make one suspect that they love to extol even their barbarism by means of Oriental exaggeration.

The "Beautiful Blue Danube" waltzes through 1,820 miles of country where one-half the people never change their shirts and the other half never bathe. Ta dunty tium to deet! to deet!—(St. Louis Post.
